

What you will learn in this program ?

This major aims at training high-quality geophysicists who have a solid mathematical foundation, systematically master the geophysical field foundation such as the gravitational field & geomagnetic fields, and master the application of basic theories, usage of observation instruments, observation methods and data processing methods of structural geology and exploration geophysical technology. They should be able to independently complete various observation and data processing tasks of geophysics by the end of their course.

Courses you'll take

- Tectonic Geology
- Rock Mechanics
- Geophysical Exploration
- Fundamentals of Geodynamics
- Optics

Teaching languages:
Chinese

Tuition:
25000 RMB/year

Course start date:
September

Course duration:
Four Years

Required qualifications for applicants

- 1. Non-Chinese citizens, in good health**
Applicants should be non-Chinese citizens. In the case of former Chinese citizens, they should have proof of having obtained a foreign citizenship for more than 4 years and with a valid passport.
