

College of Mechanical and Transportation Engineering

Robotics Engineering

What you will learn in this program ?

In Robotics Engineering, you will master the basic theoretical knowledge and application ability of design, control, sensing, intelligent information processing and other aspects required by the robot engineering specialty, and obtain the engineering training required in the field of robotics engineering. This will lay a solid foundation for independent design, programming, application research, system maintenance and production management in the field of robotics engineering.

Courses you'll take

Descriptive Geometry and Mechanical Drawing

Machine Design

Circuit Analysis Fundamentals

Signal Analysis and Processing

Design and Application of Robotic Systems

Teaching languages:

Chinese

Tuition:

25000 RMB/year

Course start date:

September

Course duration:

Four Years

Required qualifications for applicants

1. Non-Chinese citizens, in good health

Applicants should be non-Chinese citizens. In the case of former Chinese citizens, they should have proof of having obtained a foreign citizenship for more than 4 years and with a valid passport.

2. Education and age requirements

Those applying for undergraduate study must be high school graduates with excellent grades, and not more than 25 years old.

3. Language requirements

a. HSK4 (with a score of 222) or higher level for those applying for CHINESE taught programs.

b. IELTS 6.0 or TOEFL 75 points or more for non-native speakers of English choosing English taught programs.
