

Sino-Russian ASRTU Forum Ecology and Environmental Sciences

October 20-23

Ekaterinburg, Russia

**Dear colleagues from ASRTU
member and observer universities!**

Nowadays when the world is facing a tough challenge it is vitally important to support communication between all ASRTU participants. Measures taken to eliminate COVID-19 demonstrate that joint efforts of countries, governments, citizens and international organizations are the key to successful fight with global challenges.

This Forum focuses on main aspects of ensuring ecological security, including the one of the Arctic area. The conference will include oral and poster presentations.

According to ASRTU Workplan the Ecology and Environmental Sciences Forum in Ekaterinburg is planned for October 20-23, 2020. We invite representatives of ASRTU universities to gather in Ekaterinburg for discussing new academic achievements and common challenges.

FORUM TOPICS

- Ecological Engineering for Environmental Remediation
- Source analysis and transmission of atmospheric pollutants and Air Quality Control
- Ecosystems and Communities' ecology. Problems of the biodiversity saving
- Industrial ecology: modern technical solutions on energy and resource conservation, recycling and waste management
- Big Data and new approaches for Environmental monitoring
- Protected Areas: Study, Conservation and Rational Use
- Ecology & Environment for Arctic sustainable development
- Urban sustainable development: environmental, economic, social aspects
- Environmental education and upbringing
